Read the passage . Answer the questions.

Mummification was mainly done to wealthy people as poorer people could not afford the process.

The chief embalmer was a priest wearing a mask of Anubis. Anubis was the jackal headed god of the dead. He was closely associated with mummification and embalming, hence priests wore a mask of Anubis.

This is the step-by-step process of how mummification took place:

1. Insert a hook through a hole near the nose and pull out part of the brain
2. Make a cut on the left side of the body near the tummy
3. Remove all internal organs
4. Let the internal organs dry
5. Place the lungs, intestines, stomach and liver inside canopic jars
6. Place the heart back inside the body
7. Rinse inside of body with wine and spices
8. Cover the corpse with natron (salt) for 70 days
9. After 40 days stuff the body with linen or sand to give it a more human shape
10. After the 70 days wrap the body from head to toe in bandages
11. Place in a sarcophagus (a type of box like a coffin)
12. If the person had been a Pharaoh, he would be placed inside his special burial chamber with lots of treasure!
