Three it's a magic number
Yes it is, it's a magic number
Because two times three is six
And three times six is eighteen
And the eighteenth letter in the alphabet is
We've got three r's we're going to talk about today
We've got to to
If you're going to the market to buy some juice
You've got to bring your own bags and you learn to your
And if your brother or your sister's got some cool clothes
You could try them on before you some more of those
Reuse, we've got to learn to reuse
And if the first two r's don't work out
And if you've got to make some
Don't throw it out
Recycle, we've got to learn to recycle,
We've got to to
Because three it's a magic number
Yes it is, it's a magic number
Three, three, three
Three, six, nine, twelve, fifteen, eighteen, twenty one, twenty four, twenty seven, thirty, thirty three, thirty six

Three, is the magic number
