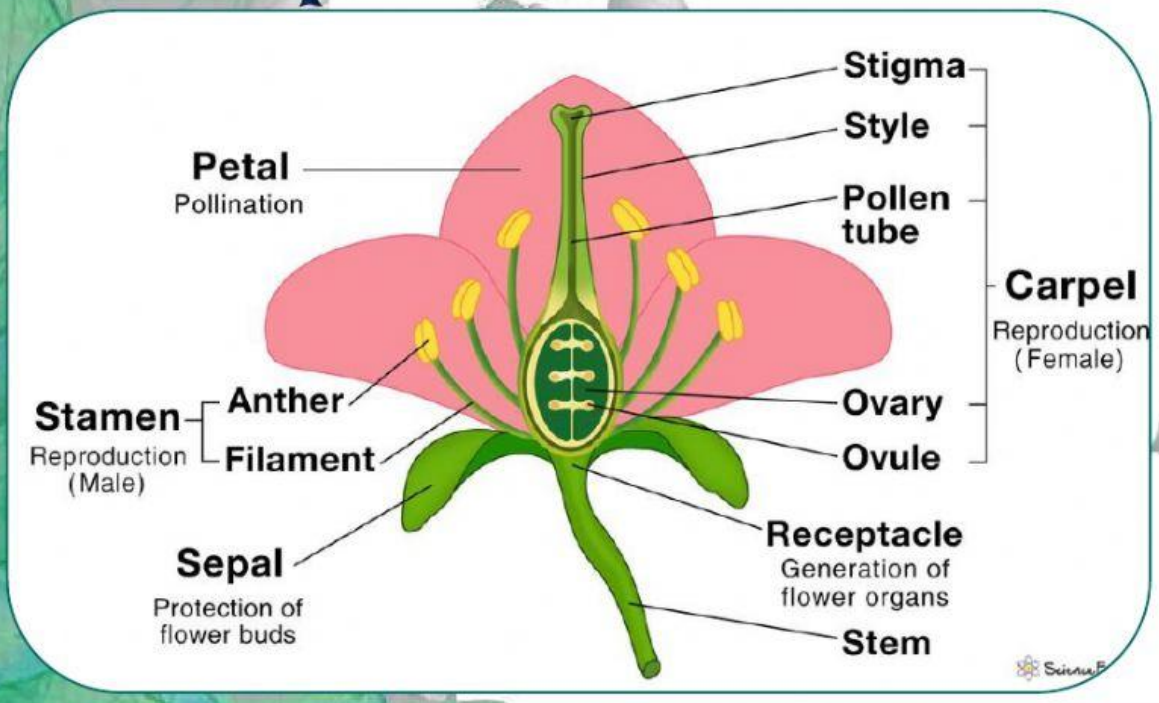
WRITING

The part of a flower



Match each words with their correct meaning picture.

LEAF | PETAL | STEM | PISTIL

LIVEWORKSHEETS

Complete the letter that are missing,

_____	The parts of a flower that are often conspicuously colored
_____	The ovule producing part of a flower. The ovary often supports a long style, topped by a stigma. The mature ovary is a fruit, and the mature ovule is a seed.
_____	The outer parts of the flower (often green and leaf-like) that enclose a developing bud.
_____	The pollen producing part of a flower, usually with a slender filament supporting the anther.
_____	The part of the pistil where pollen germinates.
_____	The enlarged basal portion of the pistil where ovules are produced.
