GAME - ACTIVITY 3rd GRADE

13. Match the features below and one of the Earth's representations. Some may refer to both of them.

- Two-dimensional representation
- Three-dimensional representation
- There are different types of them
- A flat drawing of the Earth
- A miniature form of the Earth
- Distorted view of size and distance
- Easier to visualize, use, and carry
- Land and water are represented
- More accurate proportion and distance
