Question 16 (Question ID: 9-575244)

Read the passage and choose the correct answer for each blank

No more teachers? No more books? For today's kids, the Internet has all the answers.

Gadgets come and go and most of them don't have a very long life. The Internet, **Q16.1.....**, seems to be here to stay. The World Wide Web is now the largest information resource in the world and teenagers can find more or less anything they want there. They can download music and films, watch TV, listen to the radio, **Q16.2.....** e-mails and even shop online.

In the United States, for example, more than 78% of kids **Q16.3.....** online, according to a recent study. **Q16.4.....** are just surfing the Web and instant messaging their friends. But 94% of those online said they also used it for schoolwork. This technology has allowed them to access a vast store of knowledge **Q16.5.....** inaccessible before. With online tutoring and virtual schools, technology allows students to get specific help. **Q16.6.....** to be a part of a study group or discuss school projects with international e-mail pals. Perhaps more than anything, the Internet search engine Google has changed homework habits across the globe. But the problem is that it is so easy to "copy and paste" that teachers need to change homework assignments or projects every year.

Q16.1.	A. moreover	B. although	C. because	D. however
Q16.2.	A. sent	B. sending	C. to send	D. send
Q16.3.	A. play	B. went	C. go	D. played
Q16.4.	A. Lots of theirs	B. A lot of **them**	**C. Many they**	**D. Much them**
Q16.5.	**A. that were**	**B. which was**	**C. which is**	**D. what was**
Q16.6.	**A. It is also possible**	**B. It possible is also**	**C. It also is possible**	**D. It is possible also**

LIVEWORKSHEETS

Read the passage then choose the best answer to each question.

In the year 1540, Spanish explorers traveled to what today is northern Arizona. There, they found something that amazed them. A wide canyon with steep walls ran for miles through the earth. The explorers tried to climb down to the bottom of the canyon, but it was too far. Later, they reported seeing rocks in the canyon that were bigger than any church tower back in Spain. Today, we are still amazed by this **massive** geologic formation. We call it the Grand Canyon.

The canyon was created by the Colorado River. The water **wears down** and carries off the rocks and dirt that it flows over. This action is called erosion. Over millions of years, the river has made a deep path in the earth, and this path is the canyon. Currently, the canyon is more than a mile deep, and the Colorado River still runs along the bottom of **it**.

People have traveled from all over the world to see the Grand Canyon. Grand Canyon National Park is one of the oldest national parks in America, and more than five million tourists visit it each year. They like thinking about how long it took the Colorado River to **carve** the canyon. They also enjoy hiking and camping in the canyon. And, of course, they love to stand at the top of the canyon and admire the beautiful views.

Question 23 (Question ID: 9-162500)

What is the best title for the passage?

A. Protecting the Grand Canyon

B. Natural Wonder: the Grand Canyon

C. The Discovery of the Colorado River

D. The Grand Canyon and American History

Question 24 (Question ID: 9-162501)

Why couldn't the Spanish reach the bottom of the canyon?

A. It was very deep.

B. They were scared of it.

C. A road to it was blocked.

D. They did not have any supplies.

Question 29 (Question ID: 9-843353)

Four phrases/sentences have been removed from the text below. Choose the correct answer to complete the text. Write only the letter A-D in each blank.

A. that we can take action behind the 'plastic soup' before it gets any bigger **B.** It contains everything you could imagine, from plastic bags to children's toys and even plastic swimming pools! **C.** that after people have worked hard to fight pollution and take action on the environment for years **D.** The 'Great Garbage Patch' as it's sometimes called, causes lots of problems.

It's difficult to believe **Q29.1.....**, we still have a long way to go before we succeed. Oceanographers have discovered a huge 'plastic soup' made from rubbish floating in the Pacific Ocean. This island of rubbish has been growing slowly for over 60 years and is now so big that it goes from California to Hawaii and nearly to Japan. **Q29.2.....**

Q29.3..... One of these is the chemicals it produces in the sea. These chemicals and small pieces of plastic are now appearing in fish, and obviously, this means the plastic-filled fish could get into our dinner plates!

It's not all bad news though. A conversation group is investigating if the 100 million tons of waste can be turned into fuel and used positively at the moment. Let's hope **Q29.4.....**!
