Read the text and do the tasks

My Life Online

My name is Mark and technology plays an important role in my life. I use my smartphone and laptop every day for school and entertainment. I often search for information online to do my homework. I also use educational apps to improve my English.

In my free time, I enjoy watching videos and reading blogs about technology. I have recently created my own social media account where I share photos and short videos. However, I try not to spend too much time online because I know it can be unhealthy.

Last year, I joined a digital photography club at school. We learned how to edit photos and create videos. It was exciting and helped me develop new skills. I believe technology is useful if we use it wisely.

Task I. Choose T (true) or F (false).

1. Mark never uses technology for school. ____
2. He sometimes searches for information online. ____
3. He has created a social media account. ____
4. Mark spends all his free time online. ____
5. He joined a photography club this year. ____
6. Mark thinks technology can be useful. ____

Task II. Complete the sentences with words from the text.
