Skills Time!

Listening

1 Listen and write the numbers. 132

Children will have more free time.

Robots will help children to learn.

There will be more computers in classrooms.

Children will learn about life in space.

Speaking

2 What do you think life will be like in 100 years? Ask and answer about you.

school	home	travel	robots	weather

I think we will go to school, but we will all have a robot at our desks.

I don't think robots will do our homework.

Will we travel by car?

No, we won't. We will travel by spaceship.

Writing: An opinion paragraph

3 Write an opinion paragraph. Use the example to help you.

What will life be like when we are 50?

When we are 50, I think we will live in houses with robots and they will do everything for us. The streets won't be crowded because everyone will work at home. We will fly to the moon by spaceship for vacations. We can enjoy space food and watch our Earth.
