6 Read the text.

It is fun to travel to new places. It could be a new town or city or a new country. But how do you make sure you don't get lost?

A lot of towns have tourist information centers that have information about the local town or area. These are really good for visitors. You can find out about things to see and do. Tourist information centers also have maps, so you can find your way around.

Most people use their phones for this now. There are a lot of apps you can use on your phone or tablet for finding places.

There are some people, though, who like getting lost! Olivia is one of these people.

"When I travel to new places, I always get lost. It is nice to walk and explore different neighborhoods. I always find cool places. If I need to find my way, I ask at a coffee shop or in a grocery store."

Olivia says you should be careful though.

"I never walk off alone though. I always travel with a friend so that I am safe."

7 Choose *True* or *False*.

1 Tourist information centers have information for visitors. True / False

2 Most people use technology to find the way to places. True / False

3 No one enjoys getting lost. True / False
