SURPASS
UNIT 5

[1-4] Read the dialogue and answer the questions.

R = Ryan, K = Kelly

R Cluedo is a murder mystery game. You have to figure out who committed the murder, where, and with what weapon. You win the game (you / if / the / solve / case).

K Sounds interesting. So how do I get the details?

R See these cards? The dealer puts one person, one place, and one weapon card in this envelope. Then he (A) _____ to the players. Everyone (B) _____. You have to find out which cards each person has to guess the answers.

K Okay… How do I know which cards they have if they're hidden?

R Good question. (a) You need to make a guess about the three details—person, place, and weapon. (b) If other players have a card with any of the details you mentioned, they will show it to you. (c) Then you can cross it off your list.

K Okay, so I need to keep guessing to find the right details. (d) Can I make a guess anytime on my turn?

R Not exactly. When your turn comes, you roll the dice and move your game piece. (e) If you land on one of the rooms, you get to make a guess.

K Got it.

[5-9] Read the passage and answer the questions.

Imagine a soccer ball ① what won't wear out, won't go flat, and could last for years. That's exactly what the One World Futbol is. Here's the story of how and why it was made.

In 2006, Renaissance man Tim Jahnigen set out to make such a ball. At the time, Jahnigen was working to develop new medical technology, but he saw something on TV that changed his life. A news story showed children in Darfur ② playing soccer with a ball made of trash. Even though charities donate soccer balls to children in need, the balls quickly go flat on rough or rocky ground. Jahnigen felt that he ③ had to do something, and he even had a plan.

(A) There was just one problem: developing a new product is expensive, and Jahnigen's money was invested in his medical technology business.
(B) He knew of a strong, light foam substance that might be perfect.
(C) With this tough material, he could design a new type of soccer ball.

It wasn't until two years later which a conversation solved everything. Jahnigen ④ was spending time with his friend Sting, a musician and charity supporter. He mentioned his idea, and Sting was (D) _____ at once. If Jahnigen could give kids everywhere a soccer ball that would last, Sting said, he would help pay to develop it. With Sting's (E) _____ support, a year of development and testing began. The result was the One World Futbol, ⑤ which was named after Sting's song "One World (Not Three)."

[10-12] Read the passage and answer the questions.

The One World Futbol is the same size and weight as a standard soccer ball, but it has ① less bounce. This makes it better for playing on hard surfaces. It never needs an air pump and never goes flat. Kids can pass, dribble, and shoot for years on rough ground ② that would destroy a normal ball in months. The One World Futbol can even be run over by a car without losing its shape.

In 2010, Jahnigen and his wife founded a company now known as One World Play Project to sell the One World Futbol. The ball ③ has been donating and distributed to tens of thousands of charity organizations around the world. Thanks to this invention, these organizations (A) _____ constantly replace worn out and flattened soccer balls anymore. Any individual can also buy One World Futbols. For each ball that is sold, another is given away for free to children in need. The soccer ball ④ has already reached over 175 countries, and it ⑤ has given the company an even bigger vision for children everywhere. One World Play Project's new mission is not only to provide soccer balls, but "to turn the world into a field of play." [13-18] Read the passage and answer the questions.

Chess, a famously complex game, has twenty possible first moves. There are 400 possible second moves. In Go, however, there are 361 possible first moves and approximately 130,000 possible second moves. Go is so old that no one knows its exact origin. Historical evidence shows that Go is at least 2,500 years old; the oldest Chinese record of Go mentions that the game was played in 548 BC. That's more than a thousand years before the earliest records of chess.
