PEKANBASKET *Tournament*

21
July

Join us for an exciting basketball tournament featuring some of the best teams in the region!

Registration deadline: July 15

BORCELLE PARK

123 Anywhere St., Any City, ST 12345

LIVEWORKSHEETS

kira-kira berapa pertandingan yang akan terjadi jika terdapat 4 tim yang akan bermain??

HMM...

bukankah kita bisa menggunakan fungsi polinomial

$$f(x) = x(x-1)$$

oke berarti jika terdapat 4 tim maka :

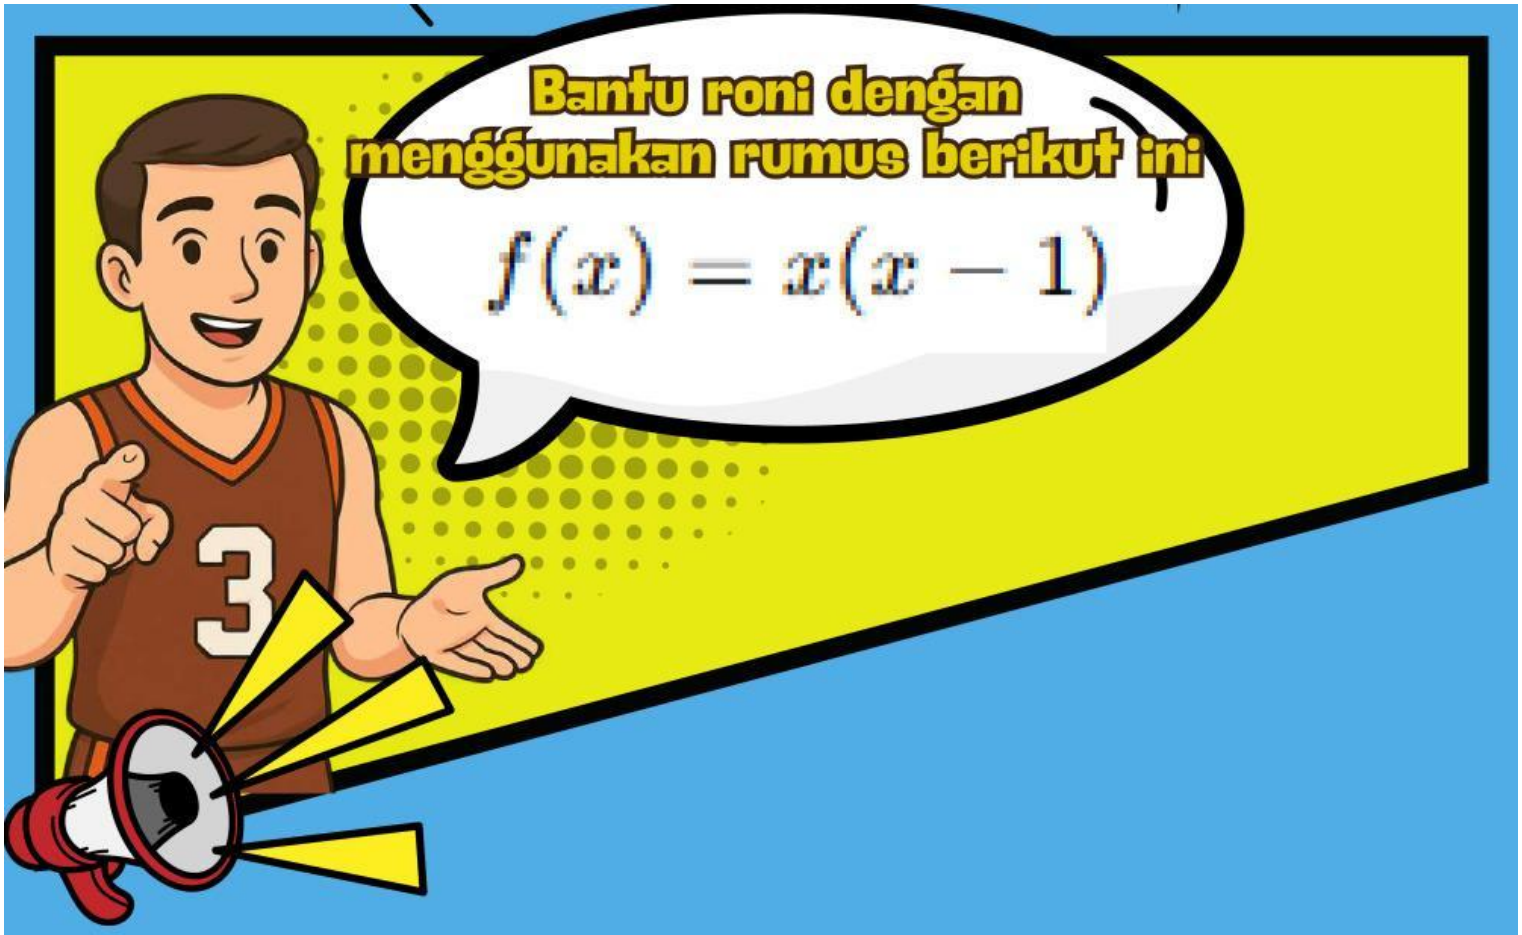
$$f(x) = x(x-1)$$

$$4(4-1) = 4 \times 3 = 12$$

jadi jika terdapat 4 tim maka akan ada 12 kali pertandingan

LIVEWORKSHEETS

LIVEWORKSHEETS



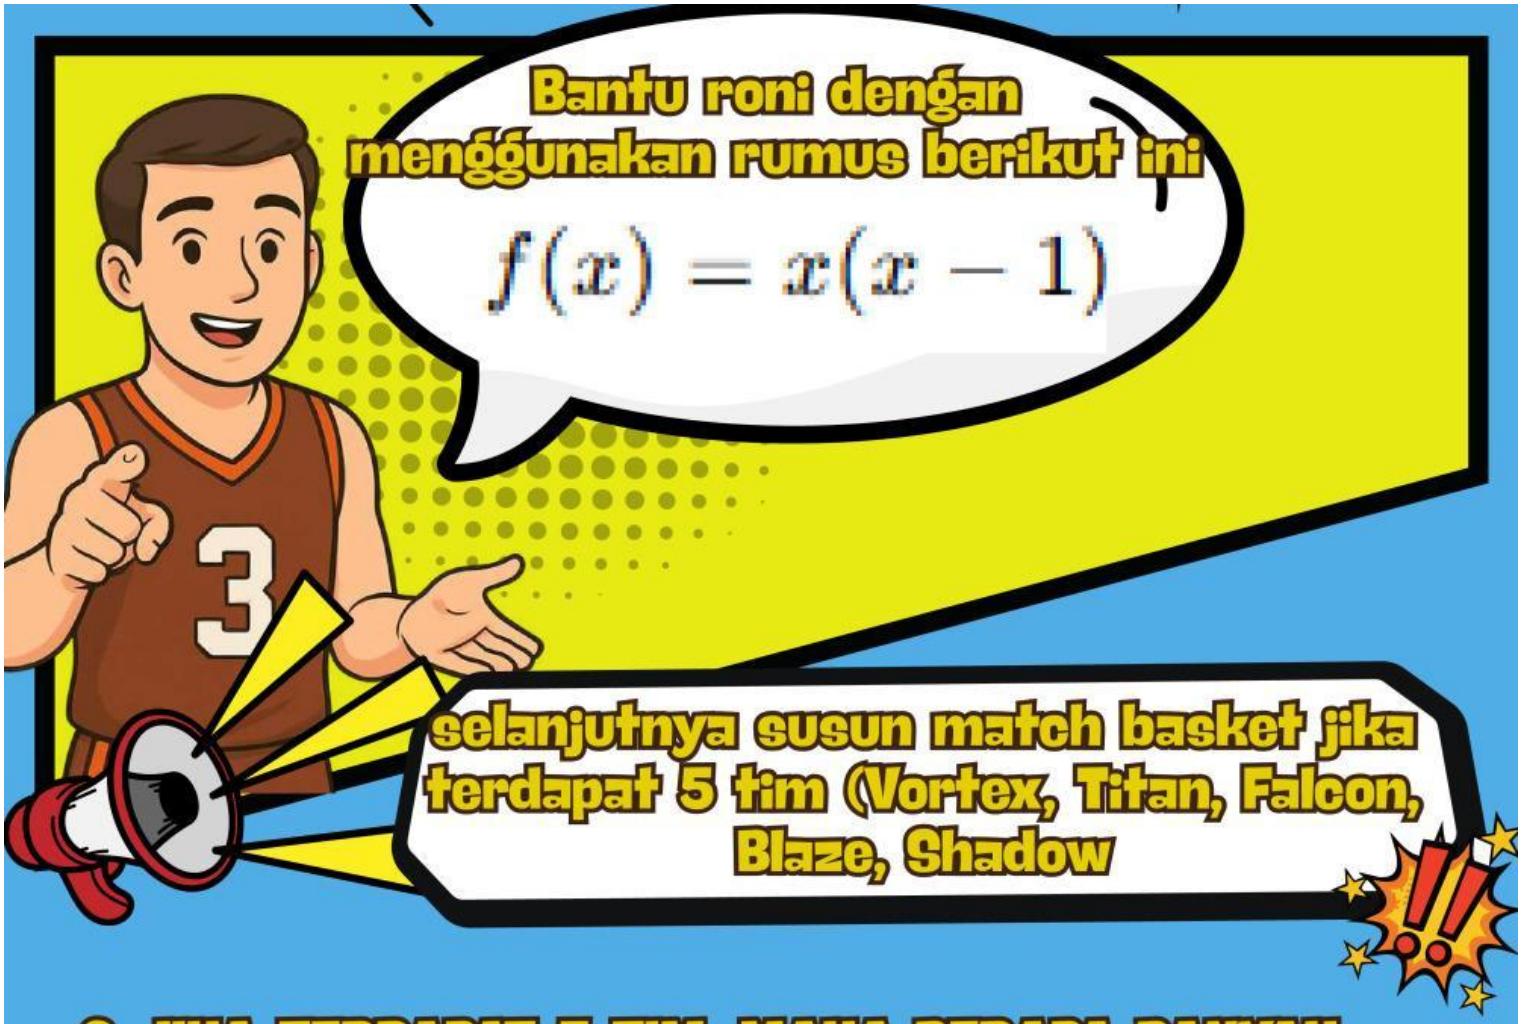
1. JIKA TERDAPAT 20 TIM, MAKA BERAPA BANYAK PERTANDINGAN YANG AKAN TERJADI?

$$f(\square) = \square\,(\square - \square)$$

$$f(\square) = \square\,(\square)$$

$$f(\square) = \square$$

LIVEWORKSHEETS



2. JIKA TERDAPAT 5 TIM, MAKA BERAPA BANYAK PERTANDINGAN YANG AKAN TERJADI?

$$f(\square) = \square\,(\square - \square)$$

$$f(\square) = \square\,(\square)$$

$$f(\square) = \square$$
