STUDENT'S WORKSHEET (Independent Construction of Text)

Materi : Report Text - Motorcycle Engine (Carburetor)
Kegiatan : Menyusun teks deskriptif dan Menganalisis generic structure serta language feature

A. Tujuan Pembelajaran

1. **Siswa dapat menyusun jumbled paragraph dengan benar.**
2. **Siswa dapat menganalisi *generic structur dan language feature* dari teks deskriptif "The Carburetor"**

B. Text (Arrange the text into a good paragraph!)

The Carburetor

1. If the mix is wrong, the engine can be weak or stop working
2. The carburetor is a small part of a motorcycle engine
3. The job of the carburetor is to mix fuel and air in the right amount before sending it to the engine. If the mix is correct, the engine runs well to the fuel tank
4. The carburetor is very important for making the motorcycle run
5. It is usually found on the side of the engine and is connected
6. . It is usually made of metal and is silver or gray in color. The carburetor has small tubes and holes to let fuel and air pass through

C. Analyze the Text

1.Generic Structure

a. Identification

b. Description

2.Language Feature

a. Simple Present Tense

b. Adjective

c. Action Verb

d. Noun
