CHINA

TRANSPORT IN HONG KONG

Hong Kong is in the south coast of China. It´s made up of islands and it has got lots of hills, so there are lots of ways of travelling around.

JUNK BOATS

If you want to travel to different islands in Hong Kong, you can go on a tour on a junk boat. Junk boats are traditional Chinese fishing boats, which are now also used by tourists. They are made of bamboo. You can see junk boats floating in Victoria Harbour. One of the most popular boat rides is at sunset, when you can look at the beautiful scenery.

TRAMS

Double-decker trams travel through the streets of Hong Kong. They are very cheap. You can sit next to the window on the top deck to see great views of the city. You get on the tram at the back and you pay at the front when you get off!
