2. Complete the following chart.

3. Match the institution with its functions:

Function: An executive body of one commissioner for each member state. It implements EU policies and proposes new laws.

European Courts of Auditors

Function: A legislative body elected by EU citizens. It prepares and passes laws and budgets. It shares powers with the Council of the EU.

Courts of Justice of the EU

Function: A legislative body of one minister for each member state. It discusses and approves EU laws and manages security matters.

Council of the EU

Function: The Council of the EU appoints one court member for each EU country. It makes sure EU funds are collected and used correctly.

European Council

Function: A strategic body formed by leaders of the EU member countries. It defines the EU's general political direction and its priorities.

European Comission

Function: The highest court in the EU legal system. It makes sure member states and EU institutions observe the law.
