Every year, our school (organise) a Green Week in September. The event (begin) at 8.30 am on Monday and (finish) on Friday afternoon.

Next week, our class (visit) a local recycling centre on Wednesday. We (meet) our Science teacher at the school gate at 8.00 am.

Last year, we (plant) more than 50 trees in a nearby park. At first it (be) a bit hard. While we (work), it suddenly (start) to rain. As we (leave), it (stop), so we decided to continue. That (give) us great satisfaction.

Since then, our school (become) much more environmentally friendly. We (learn) a lot, so we (change) our habits. We (collect) plastic bottles and paper for the last 3 years, and many students now (recycle) themselves at home, too.

Apart from the recycling centre, there will be new activities that our teachers (plan) for the past few months. I can't wait to see what else I can do to help the environment.
