	6. What jobs will people do in the future? .....

III. Write some words to complete the sentences about the story. You can use 1, 2, 3, or 4 words. (… /6)

I'm Vinh. I'm ten years old, and I go to Phan Chu Trinh Primary School in Ho Chi Minh city. This week, we learned about popular jobs in the future in science class. I think many people will be engineers. There will be more people in the future, and we will need engineers to make houses, roads, and bridges. Engineers will also make robots to help in factories and our houses. We can use robots to do many cool things, too.

I also think many people will be astronauts in the future. My teacher often says that people will want to know more about space. Astronauts will travel in space and answer our questions about life on other planets. I think there will be many exciting things to learn in the future.

Example: Vinh is a student at a primary school in ……**Ho Chi Minh city**……

1. He learned about future jobs in his ……
2. Engineers will help us to build ……
3. Vinh thinks …… will help in factories and houses.
4. His teacher says that people will want to know more about ……
5. …… will give us more information about space and other planets.
6. There will be a lot of …… to learn in the future.

Good luck!
