We´re good

Dua Lipa

I'm on an _____
Even when you're close
Can't take the _____
I'd rather be alone
I think it's pretty plain and simple
We _____ it all we could
It's time I wave goodbye from the window
Let's end this like we should and _____ we're good

We're not meant to be like sleeping and cocaine
So let's at least agree to go our separate _____
Not gonna judge you when you're with somebody else
As long as you swear you won't be pissed when I do it myself
Let's end it like we should and _____ we're good

No need to hide it
Go get what you _____
This won't be a burden if we both don't hold a grudge
I think it's pretty plain and simple
We _____ it all we could
It's time I wave goodbye from the window
Let's end this like we should and _____ we're good

We're not meant to be like sleeping and cocaine
So let's at least agree to go our separate _____
Not gonna judge you when you're with somebody else
As long as you swear you won't be pissed when I do it myself
Let's end it like we should and _____ we're good

Now you're holding this against me
Like I _____ you would
I'm trying my best to make this easy
So don't give me that _____, just say we're good

We're not meant to be like sleeping and cocaine
So let's at least agree to go our separate _____
Not gonna judge you when you're with somebody else
As long as you swear you won't be pissed when I do it myself
Let's end it like we should and _____ we're good
