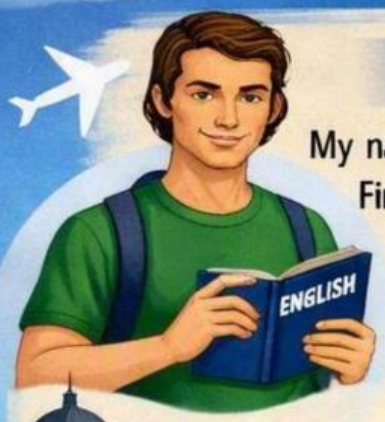
Read the text and answer the questions.



My Future Plans

My name is Daniel. I am 20 years old, and I have many plans for the future. First, I am **going to improve my English** because I want to **communicate** with people from different countries, I am **going to** ***pracerice*** **English every day** and watch videos in English.

Next year, I am **going to take an English** course at language school. I also want **to Travel to Costa Rica** with my family. I think it will be an interesting experience.

In the future, I am going to **study computer science** at university. I would like to work for an international company. I think I will have a good job if I study hard and learn new skills. My biggest goal is to have a successful career and help my family.
