My Online Shopping Experience

I wanted to buy a pink jacket. I liked it because it was cute and had good reviews. I found it on Shopee and paid by GCash. It took five days to arrive. After that, I opened the package. But there was a problem: the size was too small. Later, I contacted the seller and asked for a replacement. The seller was very helpful and sent me a new jacket. Finally, I received the new jacket, and it fit perfectly. I was very happy with my online shopping experience!
