Choose a topic and write an essay

Family & relationships

1. The difference in age between siblings has an effect on family life. Ideally, there should not be a significant age difference between children in a family. To what extent do you agree or disagree?

2. Although families have a strong influence on children's development, factors outside the home play a bigger role nowadays. To what extent do you agree or disagree?

3. Some believe that it is better for each family to live by themselves rather than share a house with relatives. Do you agree or disagree?

4. *Conflicts between brothers and sisters help children develop important life skills. To what extent do you agree or disagree?*

5. Parents have a greater influence on a child's character than teachers and friends. To what extent do you agree or disagree?
