STARTERS 3 - GIVE ME FIVE! 3 - FINAL EXAM

READING COMPREHENSION EXAM

1. Read and circle.

Sea lions and walruses live in the ocean. They live in the water, but go on land, too. Sea lions are smaller than walruses and walruses are heavier than sea lions. Sea lions can walk on all four flippers, but walruses can't. Sea lions have got ear flaps, but we can't see a walrus' ears. Walruses have got whiskers and tusks, but sea lions haven't got any. Sea lions eat fish, squid and octopus, but walruses prefer shellfish and worms. A baby sea lion is called a pup, and a baby walrus is called a calf.
Some people think walruses are uglier than sea lions. What do you think?

1 **Sea lions** / **Walruses** / **Sea lions and walruses** have got ear flaps.
2 **Sea lions** / **Walruses** / **Sea lions and walruses** can go on land.
3 **Sea lions** / **Walruses** / **Sea lions and walruses** have got whiskers and tusks.
