Name:..... Department:.....

Let's watch the video first

First: Apply internal assessments consistently and use assessment information in achieving student progress.

To make the school achieve a distinguished level, and to activate internal assessments and processes, care must be taken to:

- Apply internal assessments consistently across all grades and school levels.
- The assessment processes provide valid, reliable, and comprehensive information that is used to evaluate students' academic progress against the levels and expectations of the curriculum applied in the school.
- The information provides a complete picture of students' academic progress and their personal and social development.
