Part 1

Questions 1 to 8 *are based on the given stimuli.*
Study the information carefully and choose the best answer ***A, B, or C****. For each question, mark your answer* ***A, B or C*** *on your answer sheet.*

Career Fair 2025

: **Date:** Thursday, 17th September 2025

Time: 9:00 a.m. – 1:00 p.m.

Venue: School Hall

Form 4 & Form 5 students are invited to explore careers in healthcare, business, engineering, education and more! Meet professionals and college reps, get brochures and ask questions.

Ç **Form 5 attendance is compulsory.**

! Contact the Counselling Unit for more info.

Plan your future—see you there!

1 Based on the announcement above, who must attend the Career Fair?
A. Form 5 students
B. Only Form 4 students
C. Form 4 and form 5 students

SHOPLIFTER STOPPED BY CUSTOMER

MELAKA, Tues. – A man in his early 30s was caught stealing from a convenience store yesterday afternoon. According to witnesses, the man was seen slipping several items into his backpack before heading towards the exit without paying. A quick-thinking customer noticed the suspicious behaviour and blocked the man's path. The shoplifter tried to flee, but the customer managed to **detain** him until the police arrived.

The store manager later thanked the brave customer for his quick action, which helped prevent further loss.

2. What does the word **detain** most likely mean in the passage?
A. To hurt someone.
B. To run after someone.
C. To delay or stop someone from leaving.

LIVEWORKSHEETS

Important Update: Ipoh–Chemor Bus Route
Please be informed that the Ipoh–Chemor bus route will be suspended after 5:00 p.m. from 16 November to 26 December due to unexpected circumstances. The service is expected to resume as usual on 27 December. Passengers are encouraged to adjust their travel plans accordingly. Refunds are available for tickets purchased during the affected period and can be requested online or at the ticket counter. We apologise for any inconvenience caused.

3. Why has the company included refund information in the notice?

A. To prevent complaints from passengers.

B. To encourage passengers to book future trips early.

C. To provide support for passengers whose travel is affected.

Jimmy's Hypermart: Loyalty Reward Giveaway!

Stand a chance to win a 2-night stay for two at Frangipani Forest Resort, worth RM899!
To qualify, customers must spend at least RM1000 each month from September to December 2025 at any Jimmy's Hypermart nationwide.
The reward voucher is valid from 1 to 28 February 2026.
This offer is open only to Malaysian citizens and is not exchangeable for cash.

4. Why is the spending requirement spread across four months (Sept–Dec)?

A. To give customers more chances to win vouchers

B. To ensure customers remain loyal over a longer period

C. To reduce the number of vouchers the store needs to print

ROSIE
018-22055498

My brother gave me a wrapped art set for my birthday. Unfortunately, I found out that some of the colours had dried out when I opened the gift. I thought maybe he had bought it from a thrift shop because he had no money to buy me a proper gift.

But I was wrong! The very next day, he joyfully showed up with a brand-new smartphone!

I'm wondering whether I should bring up the subject of the defective gift, which possibly embarrassing me, or just ignore it?

5. From the text message above, Rosie was upset because

A she received a faulty present.

B she did not want to shame herself.

C her brother did not buy her a new smartphone.

SAYANG PASTRIES

Questions 9-18 *are based on the following passage.*
Read the passage carefully and choose the ***best*** *answer* ***A, B, C*** *or* ***D*** *to fill in each blank.*

Home Safety

Home should be a place where we feel safe and protected. However, accidents **(0)** **at** home are more common than many people think. It is important to take proper measures to ensure the safety of everyone, especially children and the elderly.

One of the most common causes of accidents at home is slipping or tripping. To avoid this, make sure floors are free **(9)** _____clutter and use non-slip mats in the bathroom. Electrical safety is another major concern. You should never overload electrical sockets with too **(10)**_____appliances, as this increases the risk of fire.

Keep sharp objects such as knives and **(11)**_____out of reach of young children. Plus, store cleaning products and medicines in locked cabinets, as they can be dangerous if ingested. Few people do not **(12)**_____ how hazardous everyday chemicals can be.

When it comes to fire safety, install smoke alarms in every room and test them regularly. It is also a good idea to have a fire extinguisher in the kitchen, **(13)**_____most fires start. Make sure everyone in the household knows what to do **(14)**_____case of an emergency.

Another important step is to secure heavy furniture and televisions to the wall. Earthquakes or even curious toddlers trying to climb furniture can cause serious injuries if these items fall. In addition, ensure all windows are fitted with locks, particularly on **(15)**_____floors.

Even pets can be a safety concern. While they are part of the family, they should not be allowed to roam freely in areas with hot surfaces or sharp tools. **(16)**_____precautions can go a long way in preventing unnecessary injuries.

Remember, home safety is not a one-time effort. It requires regular checks and updates. In conclusion, a safe home environment depends **(17)**_____awareness, preparation, and consistent action. If everyone in the household contributes, accidents can be reduced to a **(18)**_____minimum.

PART 3

Questions 19 to 26 *are based on the following passage*

Read the passage carefully and choose the correct answer (**A**, **B**, **C** *or* **D**)

Electricity is one of the most important inventions in human history. It powers almost every aspect of modern life, from lighting and communication to transportation and industrial production. Without electricity, we would not have the everyday comforts and technology we depend on.

Electricity is a form of energy resulting from the movement of electrons. It can be generated in various ways, including through the burning of fossil fuels such as coal, oil and natural gas. However, because these fuels harm the environment, more people are turning to renewable energy. These include solar power, wind energy, hydroelectric dams and geothermal energy. These alternatives are not only better for the planet, but they also help reduce pollution and combat climate change.

The journey of electricity begins at power plants, where it is generated and then travels long distances through high-voltage cables. It eventually reaches homes, schools, hospitals and businesses, enabling people to carry out tasks with speed and efficiency. In fact, most daily activities depend on a constant supply of electricity. We use it to cook food, refrigerate food, clean clothes, study and entertain ourselves. In industries, electricity powers machines and technology, helping boost the economy and productivity.

Despite its many advantages, electricity must be used with caution. Improper handling of electrical appliances or exposure to faulty wiring can result in serious accidents, such as electric shocks or even fires. Using electrical appliances incorrectly or having bad wiring can cause serious accidents like shocks or fires.

Another important issue is energy conservation. Although electricity is widely available in many parts of the world, it is still a limited resource in others. Furthermore, the overuse of electricity leads to higher energy consumption and increased pollution, especially if it comes from non-renewable sources. To save electricity, we can adopt simple habits like switching off lights and fans when they are not needed, unplugging devices after use and choosing energy-efficient appliances.

Governments and organizations around the world are also encouraging the use of green technologies. Innovations such as electric vehicles and solar panels are becoming more popular. These not only reduce our dependence on fossil fuels but also promote a cleaner, healthier environment.

In conclusion, electricity is an essential part of modern life. It has transformed the way we live, work and interact with the world around us. As users, we must learn to appreciate its value, use it responsibly and support eco-friendly ways to generate electricity. By doing so, we can ensure that future generations will continue to benefit from the power of electricity without harming the planet.

LIVEWORKSHEETS

19. What is the main idea of paragraph 1?

A. Electricity is expensive to produce.
B. Electricity is widely used in factories.
C. Electricity is dangerous and should be avoided.
D. Electricity is crucial in modern life and technology.

20. Why is there a shift towards renewable energy sources as an alternative for generating electricity?

A. They offer cleaner solutions with less environmental impact.
B. They contribute significantly to environmental damage.
C. They increase the reliance on non-renewable resources.
D. They are more expensive to maintain over time.

21. Which of the following best explains why electricity is essential for both personal and national development?

A. It allows schools to have lights and fans.
B. It helps people cook food and refrigerate items.
C. It supports daily life while also driving industrial growth and efficiency.
D. It powers machines and technologies that increase productivity in industries.

22. What is the main purpose of electricity as described in paragraph 3?

A. To reduce the need for power plants.
B. To replace human workers in factories.
C. To increase the price of industrial machinery.
D. To help people and industries perform tasks efficiently.

23. What can be concluded about the safe use of electricity?
A. Only certified electricians should use electrical devices.
B. All electrical devices are designed to prevent accidents.
C. Serious accidents only happen in industrial areas.
D. Safety depends on proper use and maintenance.

LIVEWORKSHEETS

24. How does promoting the use of renewable energy sources help support electricity conservation efforts?

A. It increases dependence on fossil fuels.
B. It encourages people to use more electricity.
C. It reduces the need for non-renewable sources.
D. It reduces the use of technology in daily life and saves electricity.

25. The adoption of solar panels can be considered beneficial because
A. it is promoted by governments and organizations worldwide.
B. it supports environmental well-being and sustainability.
C. it is a popular alternative to many countries.
D. it makes energy consumption less efficient.

26. How does supporting sustainable methods of electricity generation impact both the environment and society in the long term?

A. It helps protect natural resources and ensures clean energy.
B. It increases pollution and eco-friendly alternatives.
C. It reduces the need for any electricity use today.
D. It makes electricity more reliable.

LIVEWORKSHEETS

PART 4

Questions 27 to 32 *are based on an article about a new way of travelling called glamping.*

Six sentences have been removed from the article. Choose from the sentences ***(A to H)*** *the one which fits each gap* ***(27–32).*** *There are two extra sentences which you do not need to use.*

Glamorous Adventures: The Rise of Glamping

For years, people associated camping with roughing it out—pitching tents, cooking over a fire and sleeping on the cold hard ground. But times have changed and now a new trend has taken over the world of outdoor adventures: *glamping*, a blend of "glamorous" and "camping". (27) ☐ Glamping offers travellers the opportunity to enjoy the beauty of nature without giving up the comforts of modern living.

The popularity of glamping has skyrocketed over the past decade, especially among young globetrotters. Unlike traditional camping, glamping provides amenities such as plush beds, Wi-Fi, private bathrooms and even air-conditioning. (28) ☐ This allows tourists to connect with nature while still enjoying a hotel-like experience.

Glamping sites can be found all over the world, from the deserts of Morocco to the forests of Japan. In Malaysia, eco-friendly resorts in Sabah and Pahang now offer glamping domes with stunning views. (29) ☐ These unique accommodations appeal to environmentally conscious travellers who still want luxury. Many travel experts believe glamping is not just a passing trend but part of a larger shift towards sustainable tourism. (30) ☐ By minimising damage to ecosystems and supporting local communities, glamping contributes to more responsible tourism.

Some critics, however, argue that glamping takes away the authenticity of real camping. (31) ☐ They claim that the very essence of camping is to disconnect from technology and embrace simplicity. Despite these criticisms, glamping continues to gain traction. The travel industry has responded with creativity, designing tree houses, yurts and safari tents that blend style and nature. (32) ☐ The result is a growing market that satisfies both adventure seekers and comfort lovers.

So, whether you are sipping herbal tea under the stars or waking up to the sound of birds in a soft king-sized bed, glamping offers an unforgettable travel experience. For many, it is the perfect compromise between outdoor exploration and indoor relaxation.

LIVEWORKSHEETS

A	This hybrid approach is especially appealing to those who are not fond of the traditional camping experience.
B	After all, how can one feel adventurous when there are a minibar and a rain shower nearby?
C	Some resorts even offer personalised butler services and gourmet meals cooked by professional chefs.
D	This modern approach to camping allows tourists to enjoy the wild without the discomfort.
E	Critics argue that even eco-friendly camps can strain local water supplies and generate excess.
F	These luxurious outdoor experiences now cater to honeymooners, families and solo travellers alike.
G	It reflects the growing desire among tourists to explore the world in a more meaningful and sustainable way.
H	Many glamping locations host cultural evenings, such as storytelling around the campfire.

LIVEWORKSHEETS

PART 5

Questions 33 to 40 *are based on the following texts.*
Read the texts carefully and answer the questions that follow.

LET'S TALK ABOUT SMART SPENDING!

A. -Amir
I used to spend my pocket money on things like trendy gadgets and branded shoes. But after attending a school workshop, I realised there's a difference between needs and wants. Needs are things we can't live without, like food, clothes, and shelter. Wants are nice to have, but not necessary—like limited-edition sneakers. Now, I would think twice before spending.

B. -Sophia
One day, I walked into a store just to look around—but walked out with a new smartwatch I hadn't planned to buy. It was on sale, and I thought it was a "limited-time offer." Later, I regretted it. I realised I was impulse buying—making a quick decision without thinking it through. Now I always make a list before shopping and stick to it. It can reduce unnecessary spending and improve financial discipline too.

C. -Siti
I bought a hair dryer online, but when it arrived, it didn't work. At first, I wasn't sure what to do. Then I remembered what my teacher said about consumer rights. Everyone has the right to get safe products, clear information, and fair service. I contacted the seller and asked for a replacement—and got it!

D. -Jay
I love using e-wallets when I want to buy food or books. It's fast and easy. But my older brother reminded me to be careful with digital payments. If you're not cautious, your personal details could be stolen. While these methods offer convenience and speed, users must alert and protect their personal information to avoid fraud or theft. Now, I will make sure to log out of my accounts and never share my PIN with anyone.

E – Chong
I wanted to buy a new backpack. Instead of buying the first one I saw, I checked a few websites to compare prices. In the end, I found the same bag at a lower price with free shipping. I believe price comparison really helps me spend wisely—and saves my money, too.

F – Roshan

Developing wise saving habits is the key to financial security. Every week, I put a small part of my allowance into a savings jar. At first, it didn't seem like much, but after a few months, I had enough for a new pair of shoes. I know that saving regularly—even a little—can help me prepare for bigger goals. Having savings allows me to handle emergencies and plan for future expenses like education or travel.

LIVEWORKSHEETS

Questions 33 to 36

Using the information given, which text (A to F) describes the following views on smart spending? For each question, mark your answer on the answer sheet.

Statement	**Paragraph**
33. Aisyah always checks several online platforms before deciding what to buy.	_____
34. Khalid bought an item during a sale without thinking and later regretted it.	_____
35. Siva only spends on basic necessities like food and rent.	_____
36. Rina learned that she can request a replacement for a faulty product.	_____

Questions 37 to 40

Using words from the texts, complete the summary below. Choose ***no more than one word*** *for each blank.*

Write your answer on the answer sheet.

Becoming a Financially Smart Consumer

Being a smart consumer requires careful decision-making and awareness of your financial expenditure. Managing money wisely begins with understanding your priorities. One key aspect is to differentiate between **(37)** _____and wants to avoid spending money on unnecessary items. In the age of online transactions, many prefer using **(38)** _____ methods for faster payments. However, it is important to stay alert to prevent fraud. In addition, good saving **(39)** _____can help you prepare for unexpected expenses. Finally, being aware of your legal **(40)** _____as a buyer helps you take action when faced with faulty or unsafe products.
