UNIT 2- **Lesson 1**

Reading Activity "Classroom Rules"

NAME: ..... Grade: Date: April 19, 2021

Classroom rules can set the tone for your year from the beginning. When students have clear and direct expectations, they're able to stay focused and on task. Classroom rules are essential for students to follow because the classroom rules are created in order a classroom functions properly. Rules also provide students with expectations for students' behavior that's why they have to be clear and concise so that students can follow them. So, the first thing to do on the first day class is to tell the students what it is expected from the them while they are at School to prevent them from breaking them. when a student does not follow them, the student is suspended for a week period and it implies to lose one-week class. Some common classroom rules that are usually stated are: raise your hands to speak to speak, listen quietly while others are speaking, respect everyone , and keep the classroom tidy. In the end, when all students follow the classroom rules everyone has a chance to learn and be happy. Do you know what your classroom rules are?
