INSTITUCIÓN EDUCATIVA COMFACOR "JAIME EXBRAYAT"
2026 AÑO DEL AUTOCONOCIMIENTO A LA EMPATÍA Y DE LA EMPATÍA A LA TRANSFORMACIÓN DEL MUNDO.

Lema: *"esfuerzo, trabajo y fe"*

NIVELACIONES ESPECIALES – I PERIODO

VS1

Name: _____ **Date:** _____

Instrucciones: Lee las descripciones de la 1 a la 5 y selecciona la opción correcta (A, B, C o D) utilizando únicamente el vocabulario asignado.

1. It is a simple, flute-like woodwind instrument with finger holes, commonly used in schools for basic music education.

A) Recorder

B) Calculator

C) Dictionary

D) Ruler

2. It is the scientific branch concerned with the composition, structure, properties, and reactions of matter and elements.

A) Geography

B) Chemistry

C) History

D) Literature

3. It is a professional who designs, builds, and maintains structures, machines, or systems by applying scientific and mathematical principles.

A) Hairstylist

B) Receptionist

C) Engineer

D) Pilot

4. It is a certified professional responsible for driving and managing public transportation vehicles, ensuring passenger safety along scheduled routes.

A) Transit operator

Vigilado Supersubsidio

LIVEWORKSHEETS

B) Taxi driver

C) Engineer

D) Hairstylist

5. It is the academic discipline dedicated to studying the physical features of the Earth's surface, climate zones, natural resources, and human populations.

A) History

B) Chemistry

C) Literature

D) Geography

Instrucciones: Selecciona la opción correcta (**A, B, C o D**) para completar cada oración usando *present simple or present continous* junto con los adverbios de frecuencia

6. A: "What time _____ the first train to the city center on weekdays?" B: "According to the transit operator, it departs sharply at 6:15 AM."

A) is leaving

B) does – leave

C) do – leave

D) leaves

7. A: "Why are you carrying so many heavy blueprints?" B: "I _____ on a new structural project with the lead engineer this week."

A) work

B) am working

C) always work

D) works

8. A: "How often _____ your geography teacher assign map projects?" B: "Not very often, maybe once or twice a semester."

A) is – assigning

Vigilado Supersubsidio

B) do – assign

C) does – assign

D) assigns

9. A: "Is Elena available to talk right now?" B: "Not at the moment. She _____ a client's hair in the salon."

A) styles

B) always styles

C) is styling

D) style

10. A: "You look exhausted! Do you get enough rest during the school week?" B: "Honestly, I _____ before midnight because I have too much homework."

A) seldom sleep

B) sleep seldom

C) am seldom sleeping

D) doesn't sleep

Instrucciones: Lee los textos cuidadosamente y responde las preguntas de la 11 a la 15 seleccionando la respuesta correcta (**A, B, C o D**).

A Day in the Life of Diverse Professionals

In modern cities, people work in a wide variety of professions, each requiring specific skills, routines, and responsibilities. While most professionals follow a predictable daily schedule, unexpected situations often require them to adapt and take immediate action.

Take Elena Morales, for instance. She is an experienced civil engineer who works for an international construction firm. Normally, Elena arrives at her office at 7:30 a.m. and reviews architectural blueprints with her team. She always double-checks every mathematical calculation because even a tiny error can compromise the safety of a building. She rarely leaves the office before 6:00 p.m., and she usually spends her afternoons coordinating budgets and meeting with clients. However, this week is completely different. Elena is not sitting at her desk; instead, she is supervising the construction of a new suspension bridge outside the city. Right now, she is wearing a yellow safety helmet and discussing structural adjustments with the site manager while heavy machinery operates in the background.

On the other side of town, Marcus Vance works as a transit operator for the metropolitan railway system. His job demands extreme concentration and punctuality. Marcus typically starts his shift at 5:00 a.m., operating high-speed

Vigilado Supersubsidio

commuter trains that transport thousands of passengers to work and school. He never uses his personal phone while driving, and he frequently communicates with the central control station to report track conditions. At this exact moment, though, Marcus is not driving a train. Because of severe track maintenance on the northern line, he is assisting confused commuters at the main terminal, guiding them toward temporary shuttle buses and explaining the revised schedules.

Meanwhile, in a busy downtown clinic, Dr. Sofia Chen is a dedicated pediatrician. She generally sees around twenty young patients a day, diagnosing common illnesses, administering vaccines, and advising parents on nutrition. Sofia seldom takes long lunch breaks because her waiting room is almost always full. Today, however, she is participating in a regional medical conference at a local university. Currently, she is delivering a presentation on preventive healthcare to a room full of medical students and fellow doctors.

Even though Elena, Marcus, and Sofia work in completely different fields, they share a strong commitment to their communities. Whether they are following their regular routines or handling unusual tasks, their daily efforts keep society running smoothly.

11. Why does Elena Morales always check her mathematical calculations carefully?

A) Because her boss checks her work every Friday.

B) Because a small mistake can put the safety of a building at risk.

C) Because she is teaching new students how to use computers.

D) Because clients often ask her to change the prices.

12. What is Elena doing right now instead of sitting at her office desk?

A) She is meeting with new clients at a restaurant.

B) She is driving heavy machinery in the city center.

C) She is supervising the construction of a bridge and talking to the site manager.

D) She is drawing new blueprints at home.

13. Why is Marcus Vance helping passengers at the main terminal today?

A) Because his train shift finished early this morning.

B) Because he is learning how to drive a new bus.

C) Because all the trains in the city are broken.

D) Because workers are repairing the tracks on the northern line.

Vigilado Supersubsidio

14. According to the text, what does Marcus never do while he is driving a train?

A) He never talks to the central control station.

B) He never uses his personal phone.

C) He never stops at the northern stations.

D) He never works early in the morning.

15. What is Dr. Sofia Chen doing today instead of working at her clinic?

A) She is taking a long vacation with her family.

B) She is visiting young patients at their homes.

C) She is studying for a new medical exam.

D) She is giving a presentation at a medical conference at a university.
