CORONA VIRUS: TIPS TO STAY SAFE AND HEALTHY

The Ministry of Health talks about the virus and advices Argentinian citizens to take care of themselves

Yerba Buena, Tucuman. As we already know, the COVID-19 is an infectious disease caused by a Virus founded in China. This virus causes a respiratory illness with symptoms like cough, sorethroat, fever and headache.

Carla Mizzoti, the Ministry of Health of Argentina, talked with Los Cerros newspaper and recommended people to keep respecting the pandemic protocol. She also gave some pieces of advice and tips to fight the enemy: "The Coronavirus changed the way we do everything, so to keep safe you_____ wash your hands and you _____ stay at home. In addition, you_____wear a mask if you go out, but you _____ take public means of transport.

We have to remember that this is a contagious virus which infects humans, mammals and birds. So, if you respect social distancing and follow the tips, you should be fine. We're in this together! said the Ministry.
