6/a. experimenting	b. exhibiting	c. studying	d. playing

VI/ Read the text then write TRUE or FALSE: (1.5ms)

Language learners learn words in different ways. Some learners make a list and put into it the meanings of new words in their mother tongue, and try to learn them by heart. However, others do not. Instead, they write one or two example sentences with each new word in order to remember how to use the word in the right way.

In order to remember words better, some learners even write each word and its use on a small piece of paper and stick it somewhere in their house so as to learn it at any time

Many language learners do not try to learn all new words they come across. They usually underline or highlight only the words they want to learn. This helps them remember important words

There are also different ways of learning the same number of words. For example, if you try to learn ten words in two days, you can do so in two ways. You can learn the first five words the first day, and then learn the other five the next day.

1/ All learners make a list and put into it the meanings of new words in their mother tongue ……..

2/ Some language learners write one or two example sentences with each new word in order to remember how to use the word in the right way. ……
