Pertahanan Badan

1 Definisikan istilah-istilah berikut. SP4.2.2 TP1
Define the following terms.

Istilah/*Term*	Definisi/*Definition*
(a) Patogen *Pathogen*	
(b) Antigen *Antigen*	
(c) Antibodi *Antibody*	
(d) Vaksin *Vaccine*	

2 Padankan mekanisme pertahanan badan berikut dengan contoh yang betul. SP4.2.1 TP1
Match the following body's defence mechanisms with its correct example.

Mekanisme pertahanan *Defence mechanisms*	Contoh *Example*
(a) Barisan pertahanan pertama *First line of defence*	• Fagosit *Phagocytes*
(b) Barisan pertahanan kedua *Second line of defence*	• Peluh *Sweat*
(c) Barisan pertahanan ketiga *Third line of defence*	• Membran mukus *Mucous membrane*
	• Antibodi *Antibody*
	• Kulit *Skin*

3 Apakah urutan yang betul bagi fagositosis? SP4.2.1 TP3
What is the correct sequence of phagocytosis?

A	Sel darah putih mengepung bakteria *The white blood cells engulf the bacteria*
B	Sel darah putih bergerak ke arah bakteria *The white blood cells move towards the bacteria*
C	Bakteria dimusnahkan *The bacteria is destroyed*
D	Enzim dibebaskan ke dalam vakuol makanan *An enzyme is released into the food vacuole*
E	Vakuol makanan terbentuk *Food vacuole is formed*
