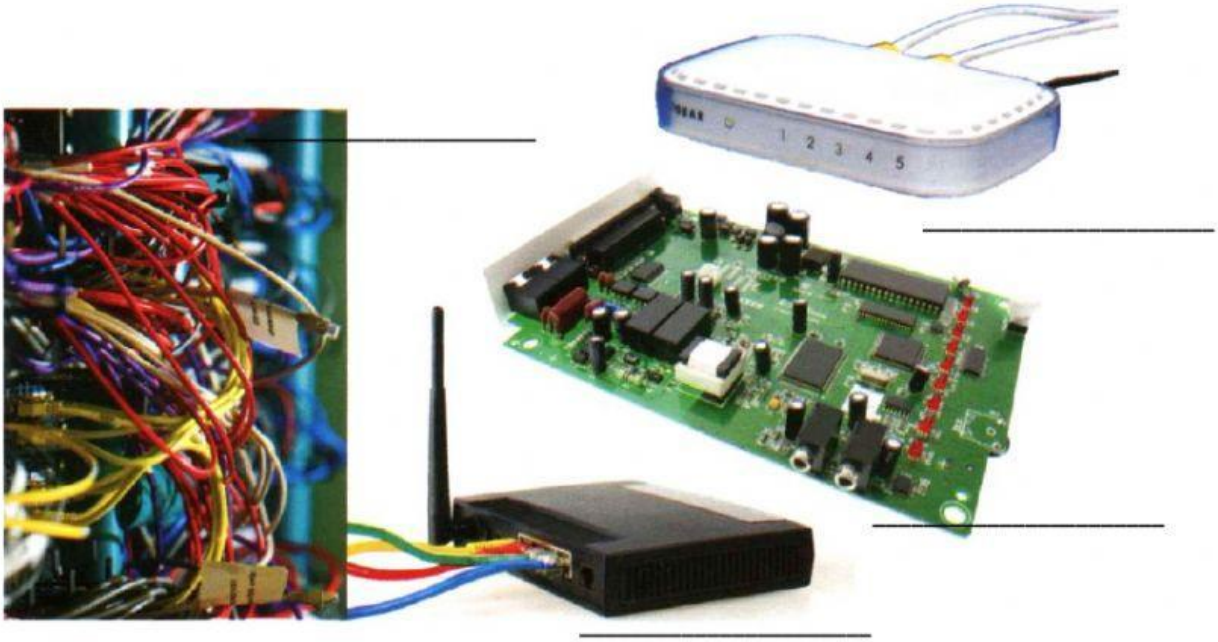
UNIT 6: NETWORK SYSTEMS

Lesson 2

Networking hardware

ACTIVITY 1: Look at the pictures. Drag and drop the names next to the corresponding picture.

expansion card	**network server**	**modem**	**router**



ACTIVITY 2: Match the words 1-8 to the descritions a-g.

1	a modem	a)	is an entrance to another network
2	a repeater	b)	channels incoming data but maintains the bandwidth speed
3	a bridge	c)	allows wireless devices to connect to the network
4	a router	d)	modulates and demodulates the data into a digital or an analog signal
5	a gateway	e)	channels incoming data but shares the bandwidth among the devices present on a network
6	a switch	f)	sends the digital signal further on in the network
7	a hub	g)	connects networks and sends packages of data between them
8	a wireless access point	h)	connects networks that use the same protocol

ACTIVITY 3: Listen and repeat the words. AUDIO 35

1 modem
2 repeater
3 bridge
4 router
5 gateway
6 switch
7 hub
8 wireless
9 access point
10 network connectors
11 network interface card
