Grade 6 Math | Algebraic Expressions | Makassed Aisha School

1) **Write each phrase as algebraic expression:**

Phrase	Algebraic Expression
The sum of 7 and X	
N times 7	
13 added to F	
The quotient of 18 and g decrease by 2	
15 less than Z	

2) **Calculate the following expressions on a draft paper then drag to it the corresponding answer:**

a) 2F + 7 such that F=14

b) 6 – Z +48 such that Z=2

c) P^2 + 18 such that p=10

d) 2 (a +b) – x such that a=5, b=8 and x=12

118	**35**	**14**	**52**

LIVEWORKSHEETS

3) **<u>What equation matches this situation?</u>**
Sara has some video games then she bought 4 more.

4) **The town of Rayburn received 6 more inches of snow than the town of Greenville. Let g represent the amount of snow in Greenville. Choose the algebraic expression to represent the amount of snow in Rayburn.**
