I've become really good friends with a girl at school. However, we've realised we are total opposites! I'm sensitive and shy, but she's outgoing. And while I don't know what I want to do with my future, she's told me all about her plans for hers – she's very ambitious. So, my question is: Do opposites attract?

Sienna, 15

NO **Dr Annie Newman**

Unfortunately for you, scientists have proved that opposites do not attract. Studies have shown that true friends share the same interests, beliefs, and principles.

YES **Dr James Adler**

Lots of people make friends with their opposites. What's important is that you are both reliable and can always depend on each other. With these qualities, you've made friends for life!
