25. 76 + 517
26. 843 + 195
27. 754 + 236

Problem Solving

Solve each problem.

28. On Tuesday, 143 fifth graders visited the air museum. On Wednesday, 218 sixth graders toured the art museum. How many students went on the field trips to the two museums?

29. One hundred twelve fifth graders took bag lunches on their field trip. Ninety-six sixth graders carried their lunches on their tour. How many students took their lunches to the museums?

30. How many bottle caps between them did two boys collect? One saved 65 and the other saved 349.

31. Is the sum of 852 and 475 greater or less than the sum of 799 and 499?
