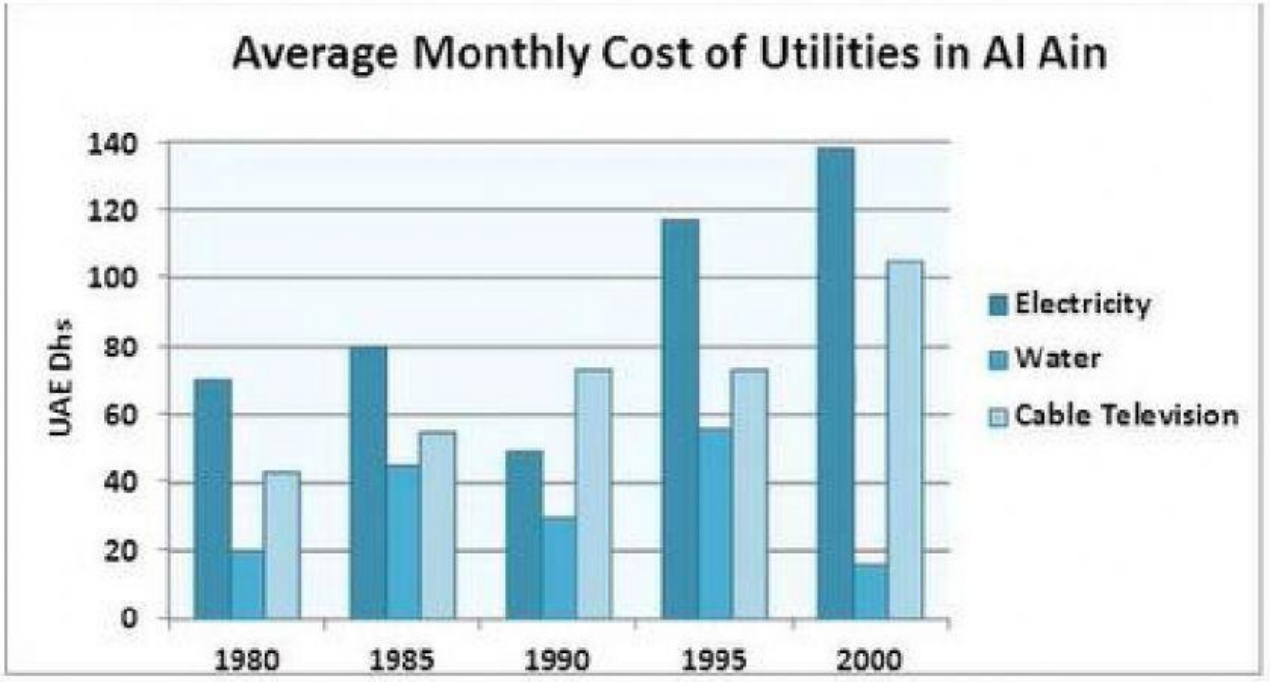
Teacher: Valeria Perlas.

- Look at the chart below. It shows the costs of electricity, water, and cable television for all the utilities in Al Ain.
- Which year does each sentence (1-5) on the opposite page describe?
- For each letter, mark one letter (A-E).
- Do not use any letter more than once.



A B C D E

1- In this year electricity and water consumption rose, while cable television consumption remained the same as the previous year.

2- Water consumption sharply decreased in relation to the following year, although electricity consumption slightly increased, whereas water consumption slightly rose.

3- There was a sharp decrease in electricity and water consumption. However, cable television reached a higher point.

4- Cable television consumption decreased in comparison to the following 5 years, whereas electricity and water consumption was dramatically rised.

5- Water consumption reached its lowest point, whereas cable and electricity
