My Parents' Work

My name is Aldi. I am 9 years old. I live in a small city but the area where we live still have rice-fields areas. My mother is a teacher and my father is a farmer. My mom teaches in a primary public school near my house. My father works as a farmer. Let me tell you about my parents' work.

She is my mother. My mom starts to work at six in the morning every Monday to Friday. She comes back to home from school at two in the afternoon. At school, my mom teaches many students. She works to help the students to study. ***My mom shares her thoughts, knowledge, services and energy to help all her students to study. In short way, my mom works in service field.***

He is my father. My father is a farmer. He starts to work at seven in the morning. After taking my mother to school, he goes to our rice fields not far from my house by bike. This month, he starts to plant the rice plants. He had ploughed and watered the field after the harvest time last week. We will harvest the rice plants after 3 months.

My father is very diligent and careful to take care his plants. So, we mostly have good harvests every year. After 3 months later, my father will crop the ripe rice plants. He will cut the ripe rice plants and dry them well under the sun. Then, he uses rice huller to separate the rice with its husk. After he gets the clean rice grains, he sells the rice grains to markets to get some money.

Because of my father and my mother work, so our family can fulfill our needs. My father and mother can give us good food to be healthy. We have good educations for our future. We can buy something that we need, having fun time for holidays.

If one of us gets sick, we can go to hospital to check of health. I know my parents are very diligent to work. They have good jobs for our family. I hope, I can have a good job in the future. So,I can earn some money for my parents and my family. Aamiin

A. Let's interview your brothers, sister or other members of your family, about their dreams.

NO	Name	What do you want to be?	Reason
