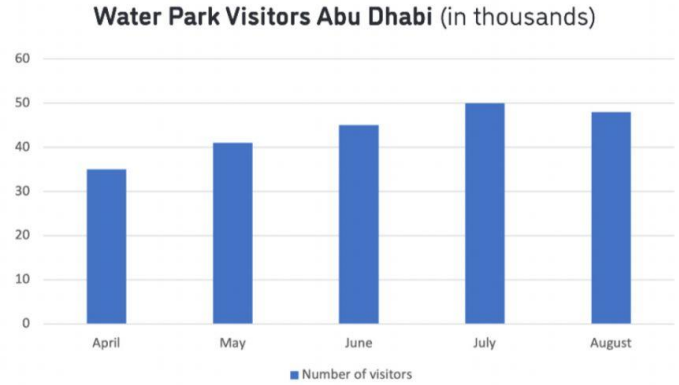
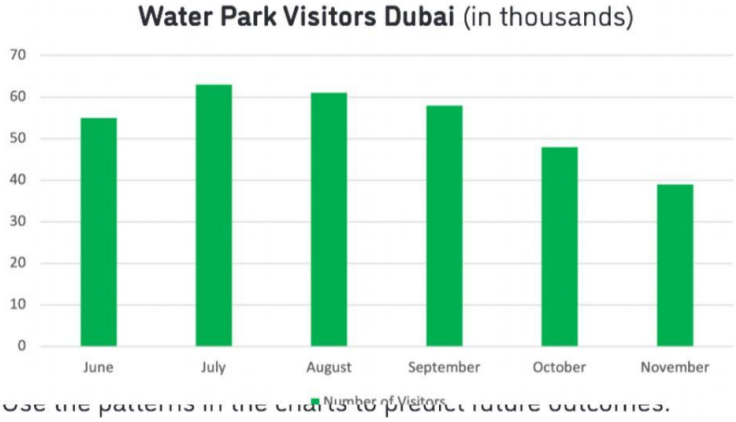
Activity 7

Look at the bar charts below. Analyse both charts and identify the relationship between them.





Use the patterns in the charts to predict future outcomes.

1. What is the relationship between both charts?

2. What is the least popular month for water park visits in Dubai?

3. What is the least popular month for water park visits in Abu Dhabi?

4. What is the most popular month for water park visits in the UAE based on the charts?

5. Predict what will happen in winter months based on the data provided.

6. Can you think of any reasons why the number of visitors to water parks is higher in July and lower in April or November?
