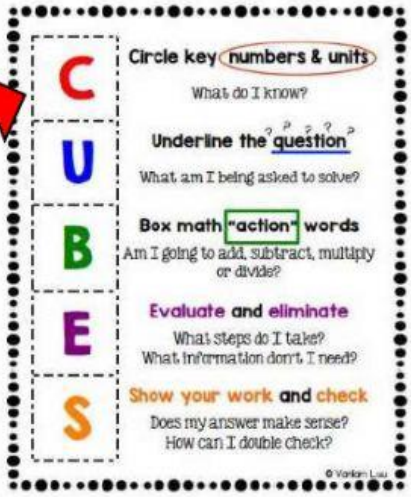
Math Problem 2 & 3

INSTRUCTIONS

1. Watch the video before you do this worksheet.
2. Follow the problem-solving steps.
3. When you are finished, submit the worksheet.
4. If you get all the answers correct, you are a champion at using this Math strategy! Well done!
5. If you made some mistakes, watch the video again and then try the worksheet again.



This is Problem 2

Ahmed has 14 glitter pens for Art. Layla has 10 glitter pens and Saleh has 12 glitter pens. Wat is the sum of the children's glitter pens?

1. *If I use the **CUBES** strategy, what information should I circle?*
   A. The question.
   B. The names of the children.
   C. The numbers.
   D. The picture.

2. *If I use the **CUBES** strategy, what should I underline?*
   A. Underline the question.
   B. Underline the names.
   C. Underline the numbers.
   D. Do not underline anything.

LIVEWORKSHEETS

3. *Which word or words tell me that I have to **add** the numbers?*

   A. glitter pens

   B. children

   C. sum

   D. Art

4. *These are some of the strategies you can use to solve the problem. Match the picture to the strategy.*

   A. I can draw a picture and count. 
   B. I can write a number sentence.

   C. I can use a number line to add. 14 + 10 +12 = ____

   D. I can use mental math.

5. *Solve the problem of paper and then enter your answer below in the number sentence.*

   ☐ + ☐ + ☐ = ☐

The sum of the children's glitter pens is _____.

7. *How can you check that your answer is correct? Choose all the correct answers.*

   A. There is no need to check my answer.

LIVEWORKSHEETS

B. I can check if that 14 + 10 + 12 = 36.

C. I can check if I added correctly in my picture.

D. I can re-do the calculation to see if I get the same answer.

This is Problem 3

Salama's mother gave her 38 blueberries. Salama ate 24 blueberries. How many blueberries were left?

1. *If I use the **CUBES** strategy, what information should I circle?*

   A. The blueberries.

   B. The names in the story.

   C. The numbers.

   D. The question.

2. *If I use the **CUBES** strategy, what should I underline?*

   A. Underline the names.

   B. Underline the question.

   C. Underline the numbers.

   D. Do not underline anything.

3. *Which word or words tell me that I have to **subtract** the numbers?*

   A. blueberries

   B. mother

   C. ate

LIVEWORKSHEETS

D. was left

4. *Complete the number sentence to show your work.*

☐ - ☐ = ☐

There were _____ blueberries left.

5. *How can you check that your answer is correct? Choose all the correct answers.*

A. I can re-do the calculation using a different strategy.

B. I can check if that 24 + my answer = 38.

C. I can check if I added correctly in my picture.

D. There is no need to check my answer.

If you get both Problems 2 and 3 correct, you can try to challenge next.

If you did not get all the questions correct, watch the video again and then try to answer this worksheet again.
