Task 3
Reading & Writing

Task: Click on the picture.
Read together. Click on the right answer.

Torrential rain/Strong wave pours down very rapidly and in great quantities.

Strong waves/Snow are under the influence of local winds from monsoon.

Drought/ Flood is a temporary overflow of water onto land that is normally dry.

Drought/Flood is a prolonged dry period in natural climate cycle that can occur anywhere in the world.

Monsoon winds/Drought are caused due to the seasonal changes that occur in the direction of prevailing winds.
