For those planning to enter careers requiring more practical skills, such as building or mechanics, enrolling in a vocational training

LIVEWORKSHEETS

course is the _____ choice. It has the advantage of providing students with _____ , meaning they actually practice all the information they learn and therefore pick up the skills needed to later begin their chosen career with confidence. Furthermore, as courses are more focused on the students' area of interest, they often find the learning experience more_____. Teaching methods are interactive, and in many technical colleges _____ facilities are available. There is some criticism that vocational courses fail to allow students to _____ their horizons in the same way that a university education might. However, such training is often considered a better way to _____ the passport needed to enter the job market. As employers understand that applicants already have the necessary skills, obtaining that all important first job is often easier.
