My Trip to Kelimutu Lake

Last week, I took a trip to Kelimutu Lake which is located in Ende regency. It took me almost two hours to arrive there by bus due to the winding terrain and ups and downs but even so I still felt happy.

When I arrived there, my tiredness was paid off by a view of the tropical rainforest which is incredibly beautiful and still very natural, added by the beautiful appearance of the exotic Three Colour Lake. I also spent my time enjoying this amazing work of the creator while occasionally taking pictures.

That was my unforgettable trip ever and I want to go back there someday.
