Read what Fahad's argument. Notice how he uses so and however to link his ideas and opinions.

Is it a good idea to study independently? This is a question that students and teachers often discuss.

Some people think that it is excellent because all learners are different and need to learn in their own way, at their own pace.

**However**, other people say that it is good to work with, and learn from, other students in class.

Clearly, there are arguments on both sides. **However**, in my opinion it is possible ti di both, **so** sometimes we can study in class, but other times we can study independently online.

Complete the table with ***so*** and ***however***.
