IMPROPER FRACTIONS 5

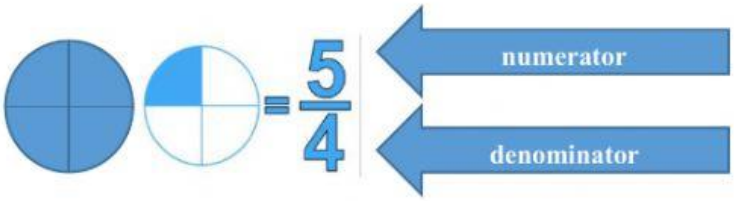
NOTES

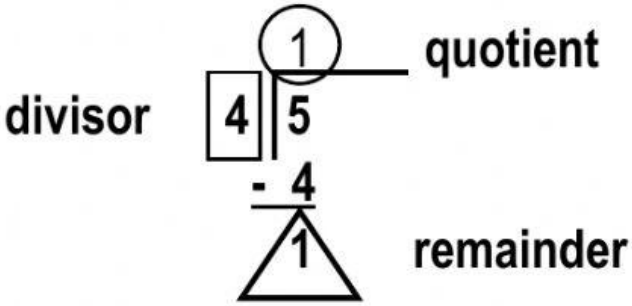
REMEMBER: An improper fraction (or top-heavy fraction) is a fraction where the **numerator** is **greater than** (or equal to) the **denominator**.

To convert an improper fraction to mixed number:

With an Improper fraction …Division is the Action!

Divide the numerator by the denominator.





The quotient is written as the whole number.
The remainder is written as the numerator.
The divisor is written as the denominator.

$$\frac{5}{4} = 1\frac{1}{4}$$
