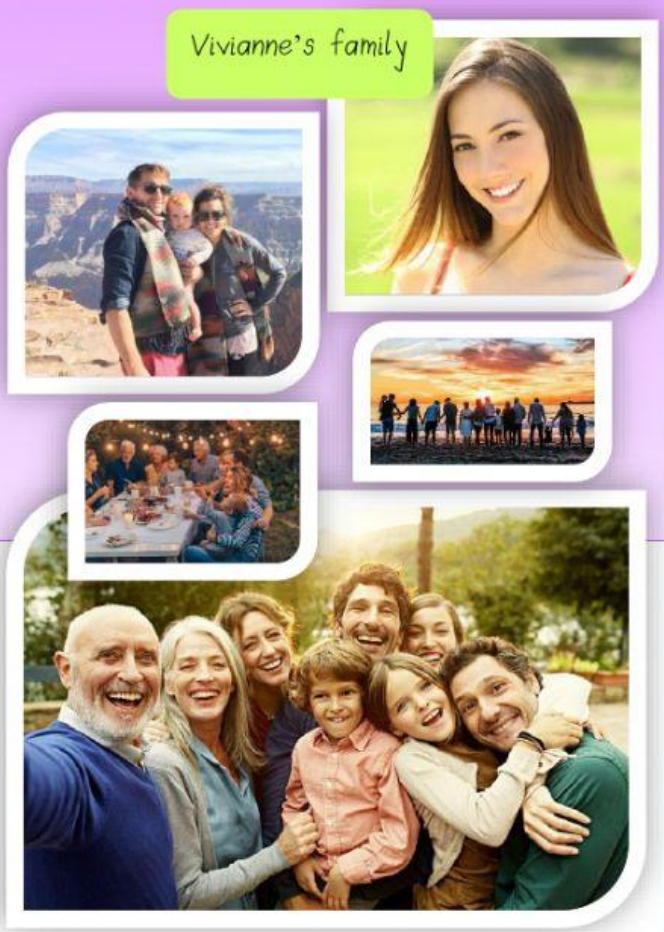
Family gatherings – Reading Comprehension



My family is very close. We always spend time together and have a great time. We always get together once a month to celebrate the birthday of someone in the family, go on a trip to a beautiful place, prepare some delicious food, play board games, and so on.

We like to travel to places where we can enjoy nature and fresh air. Sometimes, we travel to the Grand Canyon to do all kinds of sports and recreational activities. We usually rent two camper vans.

We hardly ever go shopping because the young children in my family don't enjoy it and get stressed out. Usually the adult women in my family go shopping together before Christmas.

At the end of summer, we often go camping in the mountains or go to my dad's parents' beach house. In winter, my grandmothers prepare delicious recipes and bake cupcakes and their grandchildren taste them. I never miss a family gathering because they are sacred and special times for me.
