Read the article and then answer the questions.

1 What is the scientists' explanation for the shape of an egg?
2 What do eggs and domes have in common?
3 Why does the writer say: If the egg wasn't shaped the way it is, we'd have a lot of broken eggs to clean up!?

Answers:

1. **The egg shape makes it strong - The egg shape makes it special.**
2. **They both have a the same texture - They both have a curved shape which makes them strong.**
3. **Because eggs would break easily - Because eggs are eaten by many people for breakfast.**
