LEVL.3 GRAMMAR - QUANTIFIERS

The Chief Engineer of a project is talking to the Site Supervisor about the progress of a project. Complete the dialogue with the correct quantifiers given in the boxes.

how much	**a lot of**	**much**	**how many**	**a few**
many	**few**	**all**	**both**	**a little**

CE. Hello Bader. Good morning. How is the work going on here?

SS. Good morning sir. Everything is going well here.

CE. 1. _____ workers are there on the site today.

SS. Most of our 50 regular workers are present today, but2. _____ of them are absent because they have caught Covid -19.

CE. Hope they would get well soon. Do you need any more materials here/? 3. _____ cement is left in the store?

SS. Not 4. _____ sir. We used 5. _____ o f cement to build the culvert last week, so we need to bring more.

CE. Yes of course. How about the vehicles like trucks and pickups?

SS. We have a problem with our vehicles. It is true that we have 6. _____ vehicles at this site. However, some of them are not in good condition. In fact, 7. _____ are good for this type of work and they break down very often.

. CE. I will write to our manager about that. By the way do you get enough water from the well at this site?

SS. That is another problem sir. There is only 8. _____ water in the well, so we have to depend on tankers. We buy 9._____ the water we need from tankers except for cooking.

CE. OK. Our General Manager and Chief Consultant are coming next week. I will Inform 10 _____ of them about the problems at this site. Thank you very much for your hardwork.
