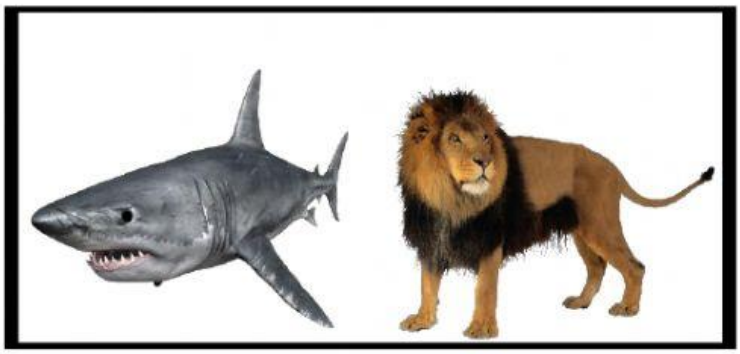
Science Year 3

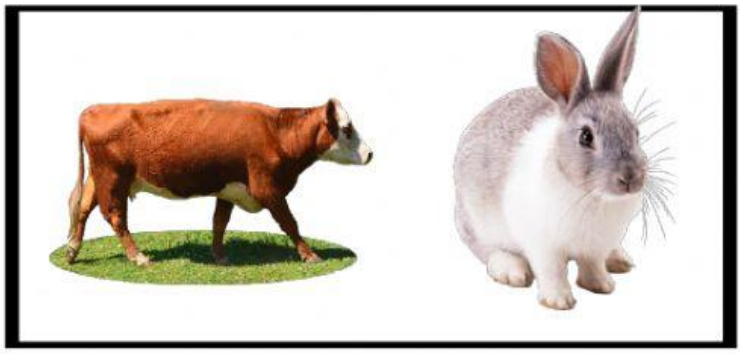
Animals' Diet. What Do They Eat?

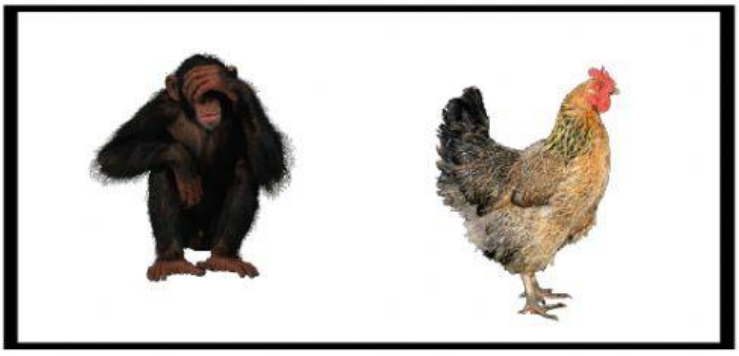
Different animals eat different type of food. There are three different type of animal's diet. Can you match them with the correct meaning of it?

Herbivore	Eat other animals
Omnivore	Eat only plants
Carnivore	Eat plants and other animals

Look at the picture below and can you choose the correct name for each group?







LIVEWORKSHEETS

Group the animals below into the correct group.

Herbivore		Carnivore
