Clase 14/05
FORM IV
Year: 2020
Miss Yesi
Instituto Sol

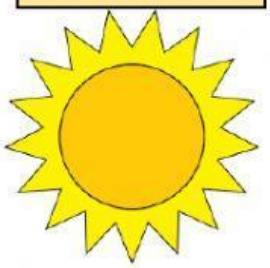
Name: .....

CLIMATE CHANGE

ACTIVITY 1: Read the sentences. Then, match the words with the correct picture. (Tienen que arrastrar los nombres que están en el cuadro y ponerlos arriba de las imágenes que corresponda)

1. Factory: it is a place where some people work. It makes things, for example, clothes and food.
2. The Sun: it is hot. The Sun is a ball of fire.
3. The Earth: It is our planet. We live on this planet.
4. Greenhouse: it is like a house but it has a lot of plants inside. It keeps the plants warm.

The Sun – The Earth – Factory - Greenhouse



ACTIVITY 2: Answer the questions:

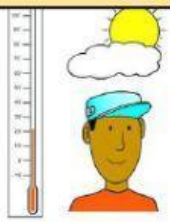
1. What is the function of a Greenhouse?

2. Do you know any greenhouse?

3. Do you know what climate change is?

ACTIVITY 3: Match the word and the picture. Tienen que arrastrar los nombres hasta las imágenes.

WINDY **DRY** **WET** **COLD** **WARM**



ACTIVITY 4: Watch the video about climate change/global warming and choose the correct option.

1) Global warming makes the Earth_____
   a) Colder b) Warmer

2) What causes the Greenhouse effect is_____
   a) The Earth b) CO_2 and other gases

3) What produces CO_2 are_____
   a) Cars and factories b) plants

4) Global warming is _____
   a) Good for the planet b) Bad for the planet

ACTIVITY 5: Watch the video again. Pay attention to Martin and Gimena talking about Ushuaia and Chubut. Then, complete the charts below.

1.

Ushuaia		
Rain (per month)	2000	
	Now	44 mm
Temperature	2000	5 °C
	Now	
Wind	2000	
	Now	21 km/h

2.

Chubut		
Rain (per month)	2000	
	Now	26 mm
Temperature	2000	12 °C
	Now	
Wind	2000	
	Now	19 km/h

ACTIVITY 6:

A) Use the adjectives on the box. With the chart in activity 4, write sentences comparing the Ushuaia's climate now with its climate before. Look at the example in 1.

Wet – warm - windy

1. Now Ushuaia **is wetter than** before.

2. .....

3. .....

B) Now, use the adjectives on the box. With the chart in activity 4, write sentences comparing the Chubut's climate now with its climate before. Look at the example in 1.

Wet – warm

4. Now Chubut is.....

5. .....

ACTIVITY 7: Now, look at the table for Chaco and answer the questions below.

Chaco		
Rain (per month)	2000	129 mm
	Now	276 mm
Temperature	2000	20 °C
	Now	21 °C
Wind	2000	11 km/h
	Now	12 km/h

1. Compare Chaco and Ushuaia. Which of these 2 is **warmer than** the other now?

2. Compare Ushuaia and Chubut. Which of these 2 is **warmer than** the other now?

3. Now compare the 3 places (Chubut, Ushuaia and Chaco). Which of the 3 is **the warmest** now?

4. What is the difference between **warmer than** and **the warmest**? Cuántos lugares podemos comparar cuando usamos **warmer than**? Y cuántos lugares podemos comparar cuando usamos **the warmest**?

ACTIVITY 8: Watch the video and complete the chart below.

COMPARATIVES	SUPERLATIVES
-To compare _____ things	-To compare _____ things
Adjective (short)+ er + than For example: Chubut is **warmer than** before.	_____ + adjective (short) + _____ For example: Chaco is _____ warm_____ of the 3 places.

ACTIVITY 9: Complete the sentences with the superlative form of the adjectives in brackets. Look at the example in 1.

1. Chaco is **the warmest** **(warm)** place of the three.
2. Ushuaia is _____ **(cold)** place of the three.
3. Chubut is _____ **(dry)** place of the three.
4. Ushuaia is _____ **(windy)** place of the three.
5. Chaco is the _____ **(wet)** place of the three.

ACTIVITY 10: Answer.

1. Do you think it is dangerous that all of the places are warmer now than before?
2. What do you think about the future as regards climate change/global warming?
3. Do you think it is important to recycle and walk?
