NAME: _____ SECTION: _____

LAYERS OF THE ATMOSPHERE

ATMOSPHERE

- the layer of gases that surrounds the earth.
- serves as insulation
- maintains overall temperature
- provides the oxygen that we breathe
- it is where the weather takes place

Directions: Complete the illustration below.

A. Place the names of the layers in the white boxes

B. Draw a line to connect the things we see in each layer with the propere label.

EXOSPHERE **STRATOSPHERE** **THERMOSPHERE**

TROPOSPHERE **MESOSPHERE**
