Variety

The next paragraph is missing VARIETY

Scientist have studied thousands of photos of Olympus Mons.They have compared them to volcanoes on Earth. Volcanologist have concluded that Olympus Mons is a shield volcano. They found similar characteristics in the satelite pictures to the "hotspot" found beneath Mauna Loa. Some people go to Mauna Loa for vacations. They could not take vacations on Mars, because it is too cold.

Could you fix it by adding the correct conjunctions?

Scientist have studied thousands of photos of Olympus Mons, ___ they have compared them to volcanoes on Earth. Volcanologist have concluded that Olympus Mons is a shield volcano, ___ they found similar characteristics in the satelite pictures to the "hotspot" found beneath Mauna Loa. Some people go to Mauna Loa for vacations,___ they could not take vacations on Mars, because it is too cold.
