READING

VII. Read the passage and decide if each statement is true (T) or false (F).

I love street art. It is visual art which is created or performed in public places. They can be a picture, a sculpture, a poster, a live human statue, a flash mob, or a magic show. Artists who create street art are called 'buskers' – street performers. Most of them perform to get some tips from passers-by. That's the way they earn their living. Some perform for entertainment purposes or voluntary donations.

At the weekend, I often go to the walking street of the city mall which is alive with music and performances on fine days. You can see a dog performing tricks, a man painting himself in colours and standing still like a statue in the street, a girl painting pictures on the pavement, or a group of musicians playing country music. If I'm lucky, I can even see students do comedy shows and flash mobs. Being able to watch so many performances in a short time at the same place is really exciting.

2. Buskers are street artists who perform in the street.		
3. Every busker performs for money.

5. You can see different kinds of street performers at the city mall every day.
