NIYAZ NATIONAL SCHOOL

GRADE 7

TRANSVERSALS AND TYPES OF ANGLES

A. Identify each pair of angles as alternating, corresponding, vertically opposite angles, supplementary angles, .

	Alternating angles	Alternating angles
Corresponding angles	Corresponding angles
vertically opposite angles	vertically opposite angles
supplementary angles	supplementary angles
complementary angles	complementary angles
	Alternating angles	Alternating angles
Corresponding angles	Corresponding angles
vertically opposite angles	vertically opposite angles
supplementary angles	supplementary angles
complementary angles	complementary angles

LIVEWORKSHEETS

	Alternating angles	Alternating angles
Corresponding angles	Corresponding angles
vertically opposite angles	Interior Angles
supplementary angles	supplementary angles
complementary angles	complementary angles
