SCHOOL and LEARNING Student Name:

This week, we will talk about school and learning new things.

I love learning new things, like recipes, languages, culture and history. I like taking classes. When I study, I like to sit at a desk and I prefer to have a book. How about you?

1. Do you like learning new things? What things do you like learning about?	**2. What do you want to learn in class?**
3. Where do you like to study? (Ex. at school, at home, at a desk, …)	**4. When you learn, do you prefer to listen to a teacher, read a book, or use a computer?**
